

Seminar in Marathon

(30.09. - 03.10.2005)

The Schutzhund-Club-Athens had kindly invited me. The seminar took place in a beautiful area near by Athens. There the club "Marathonland", a superlative private plant and breeding kennel of German shepherd dogs was the perfect place of the happening.

Here I met the participants of the seminar on friday afternoon.

After a short introduction we began with the theory, whereby then still something time remained,...

... in order to work on the late evening a few dogs..

Here some photo's:

Special thanks to Kostas Sakellaropoulos, (the left person in picture) who cared for me in the best way during my entire stay.

For the next year two seminars are planned (Thessaloniki and Athens).

Thank you to all for the friendly admission.
