

Seminar in Frederikssund (SBH kreds12)

In June the Special Klub für Belgian Shephers (KREDS 12) from Frederikssund in Denmark had invited me again to do a pure protection-work seminar.

There are two soccerfields available. which could be used by the club in agreement with a local soccer club.

On Friday afternoon it was raining, but on Saturday and Sunday we could train in the sunshine.

Not only the way how to build up the young dogs, also some trouble with older dogs and the training of the helpers should be a priority.

Not only well known and successful handlers, also new handlers were present with their dogs. Especially a lot of talented Malinois females was impressive

Once again, I was excited by the harmonious contact with each other. When we are joining the training, and also...

... at the barbecue evening on Saturday evening 😊

*And once again many thanks to Margit & Finn
for the excellent hospitality*
